

GENERAL INFORMATION

Information for Lifesaving European Championships per NT – Open and Youth

MADRID, 17TH MAY 2021

Dear colleagues,

As the President of the Royal Spanish Lifesaving Federation said in her invitation, the Lifesaving European Championships per NT – Open and Youth will be organized from September 12th – 18th in Castellon (Spain).

We are making great efforts so that the event comes out in the best conditions, especially the prevention of Covid-19 for which we are developing specific protocols of the competition that will be available on our website from 2021 July 15th.

For this reason it is very important to have your feedback on your presence in the championship as soon as possible to lec21@rfess.es, we trust in your support for this celebration with your participation.

Organizing a championship for 7 days in current conditions doubles the cost of a regular organization, so the collaboration of all teams is needed to be able to carry it out in the best conditions. For this you will find in this document the contact of the official agency, which in addition to offering the best accommodation and food conditions collaborates with the organization of the event so it is recommended that all of you can book your accommodation through the agency to collaborate in the organization of this important event for everyone.

It is important for us that although it is still a short time for the development of the organization, we can capture here all the information we have and facilitate things as much as we can.

ACCOMMODATION INFORMATION:

For your stay during the championships we can find different offers of accommodation in the attachment. If you are interested, please contact directly with the agency travel:

SKI ARIAS

Person: Eva Heras

Phone: +34 91 598 97 80

E-mail address: eva@skiarias.com

With the few months to prepare for this competition, obtaining sponsors is not being easy, something that was already clear and that is why it was already stated from the beginning that we would not have the necessary beach Equipment established (skis and boards). In order to be able to lend for the event, for that reason, we have done is reach an agreement with OceanPerf, which you will see below their contact so that all those countries that are not going to transfer their material can choose to rent it with them.

RENTAL OF COMPETITION EQUIPMENT ON THE OCEAN

Oceanperf company will be in charge of supplying beach equipment for rent (boards and skis) to all the countries that need it, for those who are interested in carrying out the management in advance and being able to have the material you need, you can arrange their needs directly with the company.

Person: Anthony Mazzer

E-mail address: anthony.mazzer@hotmail.fr

In addition, as in other international championships, each country can contribute and collaborate in the jury with referees, if it so wishes, on this occasion any country that wants to contribute referees to the jury must send an email to lec21@rfess.es before June 30th with name, refereeing level (A or B) and a short description of experience in previous competitions. This information will be sent from the Organizing committee to the College of Referees of the ILSE to designate the position of each referee during the LEC21. Depending on the reservations of the countries in the travel agency, they would consider covering the expenses of the accommodation and meals of the people designated as Chief Referee and Deputies of that championship, the travel to and from Castellon will be borne by the corresponding national federation.

VENUES

The competitions will take place in Castellon as follows:

- » Pool events: in the 8x50m indoor competition pool “Municipal Olympic Pool of Castellon”
- » Ocean events: in “Gurugu Beach”

PROGRAM
